A Style Guide Made Just for You

We know every client has a unique identity — and their uniform should reflect that. That's why we created this guide: to empower you to confidently build and style custom looks using Chef Works® apparel, all designed to thrive in any environment.

This isn't a one-size-fits-all approach. With versatile silhouettes, smart fabric choices, and coordinated color stories, Chef Works® makes it easy to mix, match, and create looks that feel intentional, elevated, and perfectly on brand.

Here's How to Start:

1. Begin with the Role

- What's the environment — kitchen, counter, dining room, or hybrid?
- What does the job demand in terms of durability, comfort, and mobility?

2. Choose Your Core Pieces

- For Back of House: Start with performance-based chef coats, utility shirts, and pants.
- For Front of House: Polished button-ups, breathable mesh, and modern fits strike the right balance between comfort and professionalism.

3. Add Personality with Aprons & Accessories

Aprons are a great way to reflect brand tone — think classic denim for rustic spaces, rich tones for elevated dining, or bold color pops for casual energy.

4. Stick to a Cohesive Palette

Maintain brand cohesion by working within a consistent color story. Most Chef Works® pieces come in multiple shades, so you can create variety across roles without losing alignment.

Ready by Design

Every item in this collection has been curated with you in mind — durable, easy-care fabrics that hold up over time, all while maintaining a polished aesthetic.
